TERrible BRUTALITY.

Turned Naked Into a Snow-storm by a Mob.

Extraordinary Case of Religious Fanaticism With Persecution—Origin of the Trouble—State of Public Sentiment.

CORNING, N.Y.—March 4.—A. J. McDowell caused the arrest of Rev. Father O'Boyle of the Catholic Church here, for permitting the use of a wheel of fortune in a fair in the name of the Society of the Precious Blood. The wheel was run by a young boy of the church, who made quite a handsome sum, and added materially to the popular revenue from the fair. The arrest of Rev. O'Boyle caused considerable sensation, and the community was immediately divided into two parties, with the one supporting the priest and his persecutors respectively.

Having given bond for appearance at court, Father O'Boyle officiated at the church Sunday evening. A great crowd of friends and adherents were present.

In the course of his discourse he commented in the severest terms on his recent arrest, and denounced McDowell as a scoundrel, and a member of the Devil's party. He was also looking for McDowell.

When a broken down man was entered Sam Lee's place for work, and was thrown into the snow tub. One came from the rear and struck him. When he heard it, he will no doubt all outlasted his business and go with the ex-superintendent to China. He will see Fung Hi up there again.

He was also looking for his wife and children.

Lee, who was to be permitted at least to get his hat and overcoat and not be compelled to face the pitiless snow-bare-headed and with only a thin oiler coat.

"It's little you'll want of hats or coats when we're done with you," said one of the men and they hustled him out into the street. Thus unsheltered they left him a short distance of town to a desolate spot. They compelled him, at the point of a revolver, to strip to the skin. As fast as he could, he struggled to his feet, and an excited crowd took up the cry of "Stop the murderer!" He then ran, but was captured. Nichols was taken to his home, bound and tyed. Brothers avers that Nichols wronged his master. Beatrice Eliza Long, eighteen years old, who came to Hadleton last October.

BAD BROTHERS.

Deliberately Shooting Down a Man in the Crowded Streets.

HAZELTON, PA.—March 4.—Last evening while the streets were thronged with people, Edward Nichols walked up to William Nichols, who was standing at the corner of Broad and Pine streets, and said something about settling a difficulty existing between them. Receiving no response, Nichols, a received expert, shot him at the salient part of the town, and a Despatch rider, who was riding along, was hit in the right arm, between the wrist and elbow, and the second entering the head at the elbow. Nichols went to the front door of the office of the Hazelton Standard, and a short distance down Broad street, where an excited crowd took up the cry of "Stop the murderer!" He then ran, but was captured. Nichols was taken to his home, bound and tyed. Brothers avers that Nichols wronged his master. Beatrice Eliza Long, eighteen years old, who came to Hadleton last October.

The Pay of Judges.

WASHINGTON, March 4.—In his report to the Senate on the bill to increase the salaries of the District and Circuit Judges of the United States, Senator Broadbent makes the following statement:

The present salaries of the Judges of the District Courts are as follows: For the District Court of New Jersey, \$5,000; for the District of Louisiana, \$4,500; for the District of Massachusetts, the Northern, Eastern and Southern Districts of New York, the Eastern District of Connecticut, the District of Pennsylvania, the District of New Jersey, the District of Maryland, the Southern District of Ohio and the Northern District of Illinois, the sum of \$4,000, and for the Judges of all other District Courts, \$3,500.

The Circuit Judge now receives a salary of \$6,000; it is proposed to increase this to \$7,000. The salary of each Associate Justice of the Supreme Court is \$1,000.

The Wilson Tragedy.

WEST PLAINFIELD, N.J.—March 4.—Ned McKeage, charged with murder of William and his wife, was brought here from Chicago this morning to attend the inquest. It was held in the same room in which the trial of Ned Kelly was held.

"The men are still here," said the coroner.

"Raise your right hand," commanded the coroner.

"Did so."

"Now swear by the Virgin Mary, the holy mother of God, that you'll never set foot or face in Court again, the longest day alive."

"You'll kill me?" said their victim.

"Knew," said the leader sternly, and enforced his second order by the ominous click of a pistol.

McKeage knelt on his bare knees in the snow.

THE DAILY BULLETIN.
TUESDAY EVENING, MARCH 4, 1884

The Ohio Prohibition Convention meets at Columbus, Thursday.

The total interest bearing debt of the United States is \$1,226,840,900.

A FAVORABLE report has been made to the United States Senate on the application of Dakota for admission into the Union.

ENGLAND wants to make a treaty with the United States on the subject of dynasties, for the mutual protection of both countries.

The United States Treasury contains \$140,000,000 in gold. It is not anticipated that the recent shipments of gold to Europe will cause any bad result.

CIVIL service reform gets a black eye in the President's determination to allow officeholders to take their pensions in the interest of the aspirations of politicians.

A BILL has been introduced in the Legislature to change the limits of Nicholas County so as to inclose the Blue Lick battle ground, which now forms part of Robertson County.

Mrs. GAINES, the famous litigant, denies that she is rich. During fifty years of effort she has not recovered enough property to pay her lawyers, and she is now in straitened circumstances.

QUINN has advanced fifty per cent. in price at New York, caused by the destruction of Power & Weightman's establishment by fire, where one million ounces of the drug are turned out every year.

The Secretary of War has still on hand about \$40,000 of the \$500,000 appropriated by Congress for the relief of the flood sufferers, which amount will be used in purchasing such additional supplies as may become necessary.

The Treasurer of the United States has prepared a statement showing the total coinage of standard silver dollars under the act of February 28, 1878, to March 1, 1884, was \$16,255,119; held in the Treasury and mints, \$126,822,399; outstanding \$39,202,720. Of the amount held by the Treasury there is held to redeem outstanding silver certificates \$36,247,721; leaving owned by the Treasury, \$30,574,677.

The Flood and Values.

Chicago Inter-Ocean.

There has been a good deal of nonsense talk about the effect of the flood destroying all values of property along the rich valleys of the Ohio. The probabilities are that no living person will ever see a house of 1884 repeated. Chicago is just as likely to be destroyed by another fire as Cincinnati to be visited by another such flood.

A Chicago Swindle.

New York Journal.

A man, for having successfully played this trick in Chicago, is now in prison; Enter a drug store or a grocery and ask for a cake of soap and demand a \$10 bill in payment. The clerks return a \$10 bill in exchange. Then, however, you already had ten cents in change, which you put with the \$4 90, asking the clerk at the same time to give you a \$5 bill for the change. After you have paid out the first \$5 bill and say for the change: "Here is \$5 more—just give me back the \$10." Simple as this plan is it frequently fools the confused clerk, and leaves the customer \$4 90 and a cake of soap ahead.

\$1,800 FOR \$1.

How Senator SAWYER'S Brother Got 1,800 For Cen. Interest on a Small Loan.

Washington Letter in Philadelphia Record.

Senator Philibet Sawyer, the lumberman, who helps to represent Wisconsin in the United States Senate, is worth just about \$1,000,000. This is a true story which Senator told the other day: "I had gathered together \$2,200," he said, "at my home in New York, which I had won in a game of chance with a young boy in 1847, when I reckoned up my capital and found, as I have said, a little more than \$2,000, was waste, so I sent out to my son to make my fortune. I signed pretty closely on the expenses of my long journey to the northwest, and came to the conclusion that \$100 would just carry me through. I had no money left, so I sold a belt which I wrapped around my heart, and put the remaining \$100 in my wallet. Counting the money in my wallet over again just here I started, I found, however, that I had but \$100 left. I did not want to take off my belt; so I turned to my brother, then in better circumstances than myself, and asked him to loan me \$1 to make up my traveling expenses. The brother said, 'I'll go Out in Wisconsin I prospered from the first, and after awhile became rich. Not long ago I met my brother in New York. He was not successful as well as I, and just at that time he was in financial trouble, and had to raise \$1,200 in order to meet some pressing obligation. He spoke to me about it and I gave him the money. Late I sent him another check for \$200. That pleased him. Don't you remember, when I had a loan you made just before I left for the west in 1847?" "No," he said. "Well," I replied, "I gave you a loan of \$1,000, which was just what I needed. Now, even though you have lost your capital, it has brought me in \$1,800. I simply return you what you loaned me, with its interest. I wish I had loaned you a few more dollars," said my brother."

Texan Telegraphers' Strike.

New York, March 4.—The Western Union Telegraph office yesterday it was said, had nothing to do with the strike of telegraphers' strike operations in the South. There were reports of a misunderstanding between the manager at Galveston and his men about pay, no interruption of service had occurred. The strike had been organized by the telegraphers' union, and the trouble was considered a local and trivial affair. Operators here claim, however, that twenty-four men have struck, and that the company's business is seriously deranged.

AFFAIRS IN FAR LANDS.

The Battle of General Graham and Other Matters.

Desperate Fighting of the Rebels—The British Enter Tokar—An Internal Machine Explosion in Germany—Other Happenings.

BERLIN, March 4.—A box containing clock work exploded in the postoffice at Berlin to-day.

THE GOVERNORSHIP OF KHARTOUM.

Khartoum, March 4.—The Government feeling convinced that Gordon's mission will fail and his life be put in peril, has offered to Abd-el-Kader, under the direction of the Foreign Minister, the British Minister, the Government Governorship of Khartoum. Abd-el-Kader has refused to accept, unless Gordon assents. Sir Evelyn Baring, in telegraphic message to the British Secretary to Gordon, intimated that the Arabic language in order that the news might spread all along the line.

MOVEMENTS OF GENERAL GRAHAM.

STEAM, March 4.—The British troops are moving rapidly at Sennar. A few shots were exchanged with the enemy, when the 1,000 rebels holding the town fled. General Graham will destroy the fortifications, and then march to Tanta. It is expected that the British will capture the city of Khartoum.

GENERAL SFRIDINGSEN should refuse to

to accept the offer, he said.

WHY DO YOU THINK BISMARCK DESERVES TO WIN?

"Well, he seems to have put himself up on terms with Minister Sargent so that

he might be betrayed into some exhibition of foolishness or ignorance, and then

cause for a great quarrel might be

found. Again he has steadily refused

to allow the exportation of our pork with Germany."

WHY HAS HE ASSUMED SUCH AN ATTITUDE TOWARDS AMERICA?

"It is partially in the hope that we should be provoked to retaliation by withholding the importation of our goods into the country.

He is anxious to find some reason

for the proclamation of an embargo to keep

the young, healthy, educated Germans,

and to prevent them from flocking to America at the rate of 100,000 a year. You must remember that while

Bismarck is a great statesman, he was a soldier earlier. He is a soldier before a statesman.

Even though he has been promoted to military power, I sincerely

trust that neither our Executive or Congress will take any substantial notice of his petulance or impertinence."

RAPIDLY RIDING THE WIND.

BOSTON, March 4.—At the First Baptist Church the pastor said he would not remain to attend to some important duty.

He then called a deacon to the platform who said there was a debt of \$50,000 on the church. He himself had given \$100, and had intended to add \$100 each year to purchase a home for old age. He called for further gifts, and in less than an hour the entire \$50,000 was subscribed. The deacon, who was leading the congregation dismissed with a blessing.

CANADIAN RAILWAY RUMORS.

OTTAWA, Ont., March 4.—It is understood a bill will be introduced in Parliament to authorize an extension of the Canadian Pacific Railway from the border of the United States to Lake Superior, and that would state that the Ministry will therefore expire June 4, but the Government is willing to let the existing tariff stand until negotiations with other powers are completed. The same advantages are to be gained by the Canadian Pacific.

AMERICA AND THE FORTRE.

CACAO, March 4.—General Gordon has ordered Colonel Stewart, the commander of the expedition, to take up the White Nile at Sennar, and to march to Khartoum. The determination of the British to hold Sennar has been graphed to all the police in Great Britain. The police have now learned that the two men arriving at Southampton stopped at a hotel in Great Britain and were sent to London to speak to the Victoria or Paddington Station. The room in which they lodged has been searched. A portion of a portmanteau was found at Paddington Station.

CONSTANTINOPLE, March 4.—The Porte declines to accept Minister Wallace's view that the treaty of Amiens was not done to prevent the pirates from attacking the coast of Asia Minor, but would state that the Ministry did not, at present, contemplate the withdrawal of English forces from the Soudan.

DECLARED FOR THE PROPHET.

CACAO, March 4.—The Arabs of Hodeida, have declared in favor of El Mahdi. The governor has telegraphed to Sennar to demand that the same be done.

DECLARING AGAINST GEORGE'S SICKNESS.

LONDON, March 4.—The first declaration on the part of the Irish National League in opposition to Henry George's land scheme was made at a meeting at Cork on Sunday, at which the scheme was declared to be impracticable.

ENGLAND'S INTENTION.

LONDON, March 4.—Lord Granville, representing the government of the Home of Lords, as to what action was intended by the Government in putting the troubles in the Soudan, said he was not prepared at present to give detailed information, but that the Ministry's intention, but would state that the Ministry did not, at present, contemplate the withdrawal of English forces from the Soudan.

THE DAILY BULLETIN.
TUESDAY EVENING, MARCH 4, 1884.

ROSSER & McCARTHY,
Publishers and Proprietors,
TO WHOM ADDRESS ALL COMMUNICATIONS

JUST here we take our pencil up,
And scrawl out these lines,
To let you know it's all over,
To trust in Western mines.
And looking back with vain regret,
Upon the thing we trusted,
Before our eyes the legend looms
"Scheme number one is busted."

THE mercury stood at zero this morning.

A POST-OFFICE has been established at Logan's Gap, Brown County, O.

THE BANK of Maysville on the 1st inst., declared a semi-annual dividend of four per cent.

THE Maysville end of the San Diego Mine, has postponed declaring dividends until further notice.

THE handsomest music box raffled by Mr. Sam Smith last night, was won by Mr. Wm. Pecor, the lucky number being 46.

A GENEROUS contribution of money received by the Relief Committee on Monday was collected by Mr. T. L. Holt, of Tuckahoe.

REMEMBER the Japanese Tea Party at the residence of Mr. Cochran this evening. The friends of the congregation are cordially invited.

We understand that the bossy cheeky Mining Company, failed to secure the San Diego mine. It is said they will begin operations with the "dumps."

A NEWSPAPER received at the postoffice addressed to the "Christian Journal, Maysville, Ky." was put in the box of the BULLETIN, of course. Postmaster Hutchins understands his business.

THE Japanese articles to be disposed of at the tea party to-night, are now on exhibition at Pecor's drug store. It is an interesting collection and the prices marked on them are very reasonable.

MR. SHROPS of Dover, in digging a well recently, at a depth of fifty feet, discovered a sycamore stump without roots, that had been sawed off square at the top. The question is how did it get there?

M. F. MARSH, real estate agent, made the sales of property belonging to Messrs Jernemiah McCarthy and George B. Thomas, mentioned in Monday's issue. The prices paid were \$800, and \$1300, ca

MR. A. R. BURGESS proposes to make a stir in the dry goods trade this spring by offering some very sensational prices. The articles he enumerates in an advertisement elsewhere have been marked at surprisingly low prices.

Don't forget that Nick Roberts' famous Humpy Dumpty Combination will appear at the opera house Saturday evening, April 5th. The company is so well-known it is hardly necessary to say anything in its favor.

A TELEGRAM received Monday from Cincinnati, by Mr. Thomas Y. Nesbit, announced that Dr. Dawson had successfully amputated Mr. B. McReff's foot just above the ankle, and that the latter was getting along as well as his friends could desire.

THE best gold mines in the United States are right here in Mason County and can be had anywhere from \$50 to \$150 an acre. Paying veins of wheat, tobacco and corn can be mined on the surface. These mine double discount San Diego claims.

Barbed Wire.

Messrs. Owens, McIlvain & Co. have received a large lot of barbed wire for fencing, which they are offering for sale at a very low price for cash. If you need wire for fencing it will pay you to call and learn prices.

MESRS. DODSON & FAZZIE have received from the ladies of the Central Presbyterian Church, of Orange, New Jersey, through Mr. Geo. M. Newman, of the firm of Sawyer, Wm. & Co., of New York, five barrels of clothing for distribution among the most needy of the flood sufferers in Maysville.

THE following is from the Cincinnati Enquirer of Sunday: The Handy No. 2 has got down to business again in the Vanceburg and Maysville trade, making connection with the Morning Mail at the latter place. She is a boat that Captain Redden and his patrons are equally proud of—beautiful and good.

CLOTHING for pulleys forms the subject of a patent lately issued to Mr. Gilman Jaquith, of this city. The invention provides for increasing the friction in the driving surface of the pulleys and making a better bite or hold for the band, and for this purpose a thread is first made on the pulley surface, then the surface is treated with a composition coating, after which strong thread is wound on, and then another composition coating added. The invention is said to be a very useful one.

There is a new jingoul, the Maxia Alba, which is of great beauty and delicacy. When compared with the favorite "Van Suylen" it is far superior.

It resembles somewhat a terrestrial orchid. Its cup is deep yellow and its petals a pale straw color. It is very handsome combined with the heavily perfumed Narcissus "Grand Monarch."

J. T. KUCKLEY.

If your children are chucked up like they had a bad cold, with a dry hacking cough, restless at night, peevish during the day, their appetite irregular, and their bowels disordered, give them a few sticks of Will's World War Candy, and you will be gratified at the result of health and sunshine. It never fails. Ask your physician and he will endorse the efficiency of the combination; and the children never object to taking it.

A Case Not Beyond Help.

He says: "A neighbor's wife was attacked with violent lung diseases, and pronounced beyond help from quick consumption. As a last resort the family was persuaded to give the Dr. Wm. Hall's prescription for the lungs. To the astonishment of all, by the time she had used one-half dozen bottles, she was about the house doing her own work.

The Entrance to the Catacombs is not more forbidding than a mouth dismantled of teeth. This disfigurement is, in most instances, the consequences of a want of attention to them in youth, but is happily preventible, as Saxon lotus, as a stump speaker once urged his auditors to vote, "early and often." This staple article is a thoroughly reliable means of rendering the teeth ornamental and serviceable. The press and medical profession endorse it.
